Faites vos demandes de GARANTIE

Cette rubrique vous permet d'envoyer au S.A.V. SCOTT vos demandes de prises en garantie.

Pas de retour des produits défectueux, les demandes sont traitées dans la journée.

Les demandes de prise en charge de GARANTIE sur les SKIS, les CHAUSSURES de SKI, les PROTECTIONS, les CASQUES et les SACS à DOS AVALANCHE se font uniquement par le site B2B Scott. Pour les autres produits, les demandes de SAV doivent être formulées au préalable par écrit en indiquant le modèle concerné, le dommage constaté, la référence de la facture d'origine.

Les cartons doivent être obligatoirement **CONTROLÉS EN PRESENCE DU CHAUFFEUR**, même si l'emballage est en bon état.

Toute anomalie devra être écrite sur le bon de transport et confirmée dans les 48 heures à SCOTT.

Sans notification sur le bon du transporteur, aucune réclamation ne pourra être prise en compte.

• Ne vous laissez pas intimider par le chauffeur. Il est indispensable de débiller le ou les produits avant signature du bon. Légalement vous disposez de 15 minutes pour l'ouverture et la vérification des colis.

• Si le livreur ne veut pas attendre la fin du déballage, inscrivez en toutes lettres

"LE LIVREUR N'A PAS SOUHAITÉ RESTER DURANT LA VÉRIFICATION DE LA MARCHANDISE" et faites impérativement signer le chauffeur (sans quoi aucune responsabilité du transporteur ni de SCOTT SPORTS ne pourra être prise en compte) puis informez SCOTT dans les 24H.

• **IMPORTANT**, la mention "sous réserves de déballage/de contrôle" n'a aucune valeur légale.

• La vérification de l'état de votre produit est considérée comme effectuée dès lors que le bon de livraison a été signé.

Livraison avec produits abîmés : Notez sur le bon du transporteur, combien de produits sont abîmés et indiquez avec précision quels sont les dégâts (par exemple : roue voilée – cadre rayé ...).

Livraison avec produits manquants : Notez sur le bon du transporteur la liste des produits manquants et informez SCOTT SPORT dans les 24 H.

Refus de marchandises : Notez sur le bon du transporteur les motifs du refus et informez SCOTT SPORT dans les 24 H.

re source

by  **SCOTT**

L'HUMAIN

Nous estimons que toutes les personnes impliquées dans notre chaîne d'approvisionnement devraient être traitées équitablement, avec dignité et respect.

LA PLANÈTE

Nous prenons en compte le fait que les ressources de la planète doivent être utilisées d'une manière qui évite d'affecter négativement les écosystèmes et les générations futures.

LE PRODUIT

Nous cherchons à augmenter autant que possible la durabilité de nos produits tout en maintenant leur haut niveau de performance au moyen de l'innovation, des technologies et du design.

re-source de SCOTT EST UNE ÉTAPE CLÉ POUR NOUS AIDER À DEVENIR UN ACTEUR RESPONSABLE ENVERS LA PLANÈTE ET LA SOCIÉTÉ. NOUS AVONS HÂTE D'AMÉLIORER NOS PRATIQUES DANS CHACUN DE CES DOMAINES.

PROTECT OUR WINTER

Fondée en 2007, Protect Our Winter est la principale organisation de défense du climat dans l'industrie outdoor. Représentée dans 13 pays à travers le monde et avec un réseau de plus de 130 000 sympathisants, POW a pour mission de transformer les passionnés d'outdoor en de fervents défenseurs du climat afin d'accroître la prise de conscience et sensibiliser au changement climatique dans l'industrie du sport de plein air. C'est avec grand plaisir que nous vous annonçons que SCOTT Sports Group a conclu un partenariat avec POW pour la saison à venir et nous sommes impatients de contribuer à la mission.

PROGRAMME RE-SOURCE DE SCOTT

Re-source by SCOTT intègre de nouvelles solutions durables dans la collection FW21/22. Nous y avons ajouté de nouveaux programmes pour atténuer notre impact sur l'environnement. Nous continuons nos recherches pour améliorer l'emballage de nos produits en éliminant le plastique inutile et en recherchant des solutions de recharge. Nous avons aussi réfléchi à la meilleure manière d'utiliser nos restes de tissus pour limiter la quantité de déchets de productions. Enfin, nous avons également étudié de nouvelles méthodes de construction de matériaux pour réduire la libération de microfibrilles dans l'environnement.

certifié re-source DE SCOTT

re-source de SCOTT est aussi un label qui sera apposé sur nos produits les plus éco-responsables. L'étiquette est apposée sur nos produits textiles depuis début 2020. Pour qu'un produit textile puisse se voir apposer l'étiquette re-source de SCOTT, il doit être composé soit à 50% de matériaux recyclés, soit à 100% de matériaux certifiés naturels. En outre, le produit doit être sans PFC et utiliser un traitement hydrofuge durable. Nous cherchons également à rendre nos autres produits plus responsables. Nous vous tiendrons informés lorsque l'étiquette re-source de SCOTT pourra leur être apposée.

CODE DE CONDUITE RSI

Notre entreprise et nos clients ont à cœur de s'assurer que chaque personne impliquée dans notre chaîne d'approvisionnement soit traitée équitablement, avec dignité et respect. Nous nous sommes associés à la Responsible Sports Initiative (RSI), un projet de la World Federation of Sporting Goods Industry. La RSI a mis en place un code de conduite unique auquel tous les membres doivent adhérer. Notre code de conduite couvre des sujets sociaux et environnementaux qui sont importants aussi bien pour nous que pour nos partenaires.

CLAUSES DU CODE DE CONDUITE

- | | |
|--|---|
| + Interdiction du travail des enfants | + Rémunération et avantages adéquats |
| + Interdiction du travail forcé | + Temps de travail et embauche adéquats |
| + Interdiction des discriminations | + Assurance santé et sécurité |
| + Interdiction du harcèlement et de la maltraitance | + Mise en avant de pratiques éco-responsables |
| + Liberté d'association et de négociation collective | |

PARTENAIRES DE PRODUCTION

Notre chaîne de production est complexe et est répartie dans le monde entier. C'est pour cela que la comprendre et l'évaluer est important. Nous avons mis en œuvre un programme de gestion de la chaîne d'approvisionnement afin de nous assurer que nos partenaires de production répondent à nos attentes et celles de nos clients. Tous nos partenaires de production ont adhéré à notre code de conduite et nous ont permis de réaliser des évaluations environnementales et sociales de leur sociétés. Nous continuons d'élargir notre programme de gestion de la chaîne d'approvisionnement en collaboration avec nos partenaires de production pour s'assurer que nos normes sociales et environnementales sont rencontrées et de les vérifier.

QUE SIGNIFIE re-source de SCOTT POUR LES VÊTEMENTS ?

les produits RE-SOURCE

- UTILISENT AU MINIMUM 50% DE MATÉRIAUX RECYCLÉS
- SONT FABRIQUÉS EN MATÉRIAUX 100% RENOUVELABLES CERTIFIÉS
- UTILISENT UNIQUEMENT DES TRAITEMENTS DWR SANS PFC (DÉPERLANT DURABLE)

61%

LE TRAITEMENT DWR SANS PFC

63% DES PRODUITS TEXTILES D'HIVER CONTIENNENT
AU MOINS 50% DE MATÉRIAUX RECYCLÉS

ECO - MATERIALS

ISOLATIONS DUROLOFT

DUROloft ECO utilise des fibres hydrophobes recyclées/ recyclables disposées de sorte à imiter la structure du duvet. Il retient la chaleur dans des poches d'air, offrant une grande isolation thermique.

DUROloft BIO mélange la laine aux fibres d'acide polylactique, un bioplastique dérivé de ressources renouvelables. Il allie la bonne thermorégulation et les propriétés antibactériennes de la laine à la légèreté et au séchage rapide de la fibre synthétique.

Re:DOWN

Tout le duvet que nous utilisons dans nos produits d'hiver sont en re:down. En collaboration avec notre partenaire, nous sommes en mesure d'utiliser des duvets recyclés ainsi que des plumes provenant de produit post-consommation. Le duvet recyclé est nettoyé, stérilisé et trié afin d'être réutilisé comme matériau isolant pour les nouveaux vêtements.

ORGANIC COTTON

Tout notre coton provient d'agricultures biologiques certifiées. L'utilisation de coton biologique réduit l'impact environnemental et social de nos produits. Nous n'utilisons pas d'herbicides chimiques ou de pesticides qui peuvent détériorer la santé des personnes autour des productions de coton.

MERINO

Tous les articles en laine mérinos sont certifiés Merino Advanced Performance Promise (MAPP).

Toute notre laine mérinos est certifiée sans mulesing.

RECYCLAGE DU PET

Tout notre polyester recyclé provient de bouteilles en PET recyclées post-consommation et détourne les déchets des sites d'enfouissement ou de l'environnement.

PEBAX R-NEW-Z

Pebax R-new est une solution bio utilisée dans certaines de nos chaussures de ski. Ce plastique est fabriqué à partir d'huile de ricin et nous offre une excellente alternative aux plastiques à base de pétrole.

POLYESTER RECYCLÉ

59% d'énergie en moins

85% de réduction de la consommation d'eau

19% d'émissions de CO2 en moins
